Quite simply, it's fast, easy and hassle free. Selling a vehicle can be difficult, risky and costly, not to mention a lengthy process accompanied by tedious phone calls.

|--|---|---|---|--|--|
| 1. With the vast array of vehicles available, yours can easily go unnoticed and advertising is costly. | 2. Meeting with strangers or having them come to your home is very risky. | 3. You may be held legally liable if you sell to a private party. | 4. If the buyer wants to test drive or show the vehicle to his mechanic, does your insurance policy cover them? | 5. If you have a loan on the vehicle, the bank will not release the title until you pay it off. Buyers and lenders will want to see the title. | 6. You make take a deposit to hold a vehicle only to find out your customer is not able to obtain financing. |
